Dissertation Research Award Application

The Northeast Counties Association of Psychologists (NCAP) Dissertation Research Awards program was established to assist and support doctoral students in psychology and early career psychologists in their research related to their dissertation project. NCAP promotes diversity and inclusion.

Application: To apply for a NCAP Dissertation Research Award, applicants must be doctoral students or early career psychologists within two years of completing their doctoral studies. Applicants must submit a completed, signed application together with the documentation listed below.

Awardees will receive an award of \$250.00, and there shall be up to four awards available per year. Application deadlines will be May 1st of each calendar year. Applications received *after* the stated deadline will be reviewed if any of the four awards remain available after the May 1st deadline. Only completed applications will be accepted for consideration and reviewed. An applicant is eligible for one NCAP Dissertation Research Award and, if granted, is not eligible to apply for a second award. In the event that completed applications exceed available awards for a given year, the NCAP Executive Board reserves the right to confer additional awards.

Eligibility

Requirements: Applicants must be current members of NCAP. Annual membership for students is \$10 and for early career psychologists is \$30. NCAP membership applications are available at <https://northeastnjpsychassoc.org/>.

Awardees are expected to prepare a 10-minute presentation of their research and its implications during one of the NCAP program meetings (Winter, Spring, or Fall). Awardees will be recognized by the Executive Board with time to present their work and will receive their awards at that time.

Awardees agree to have their name, doctoral program, institution, title, and brief summary of dissertation project on the NCAP website for inclusion in its “Sponsored Projects” section and on the NCAP Facebook page.

Completed applications are to be sent to:
